

Masatoshi Nishiguchi

Washington, DC

<http://mnishiguchi.com> | (202)-509-1887 | nishiguchi.masa@gmail.com

I am a full-stack web developer who is passionate about building semantic and dynamic web applications. I utilize a unique mix of experiences such as working as an industrial sales engineer to be a resourceful developer. I am a careful planner and carry out every task steadily and persistently until it is resolved according to the requirements. I enjoy exploring new technologies with curiosity, and welcome new challenges.

TECHNICAL SKILLS

Ruby on Rails, Rspec, JavaScript, jQuery, React.js, Angular.js, WordPress, PHP, Java, Android, Python, C++
